

Company Profile

About Us

Alipta Tracking is a leading solution provider, turnkey system Integrator and innovative solution consultant for all types of Electronic Security Systems. We are committed to our clients in the strategic design and seamless execution of innovative, state-of-the-art technology security systems that are delivered within budget and agreed time scales.

Our core strength is based on Alipta Tracking investing in its people and its products to protect your people and your assets with continued growth throughout the country and region. Alipta Tracking's world-class security technology is supported by highly experienced security specialists, design engineers, service and maintenance professionals all furnished with years of experience in the integration of major surveillance and security systems.

We stand out from other competitors in the market not only with our various services but also because of several reasons like regular service checks, user friendly appliances and customer friendly staff.

Company Profile

OUR MISSION

We strive to be the predominant provider of CCTV and associated electronic security systems and solutions at competitive prices, while providing unquestionable levels of service excellence and ultimately reducing our clients operating costs while providing peace of mind.

OUR VISION

To be the best and reliable tracking company for your peace of mind.

WHAT MAKES US BETTER

At ALIPTA TRACKING, we aim to assist our clients every step of the way by not only assisting in the planning of their projects but also by the after sales support we offer. In our business the customer truly comes first and we will not miss an opportunity to exceed expectations

ACCESS CONTROL

At the heart of any security system is your access control - Questions on who has access to the premises, why and when are always asked. Our options include Facial recognition,

Our option include Biometric and Card access terminals connected to bespoke door locking systems coupled with PC Server software to keep your points of access secure and monitored.

OUR SERVICES

CCTV SYSTEM

CCTV System is an effective prevention technology, Video Surveillance (CCTV) utilizes the latest digital technology to monitor access to secure areas, unauthorized activities, theft or criminal damage and personal safety or even provide a remote response to an intrusion.

ALARM SYSTEM

An intruder alarm system is designed to detect intruder presence at your premises. When detected, a siren will activate and communicate an alarm signal to all of our highly sophisticated Monitoring devices from where an appropriate response will be coordinated. Intruder systems can be either hard wired or wireless.

OUR SERVICES

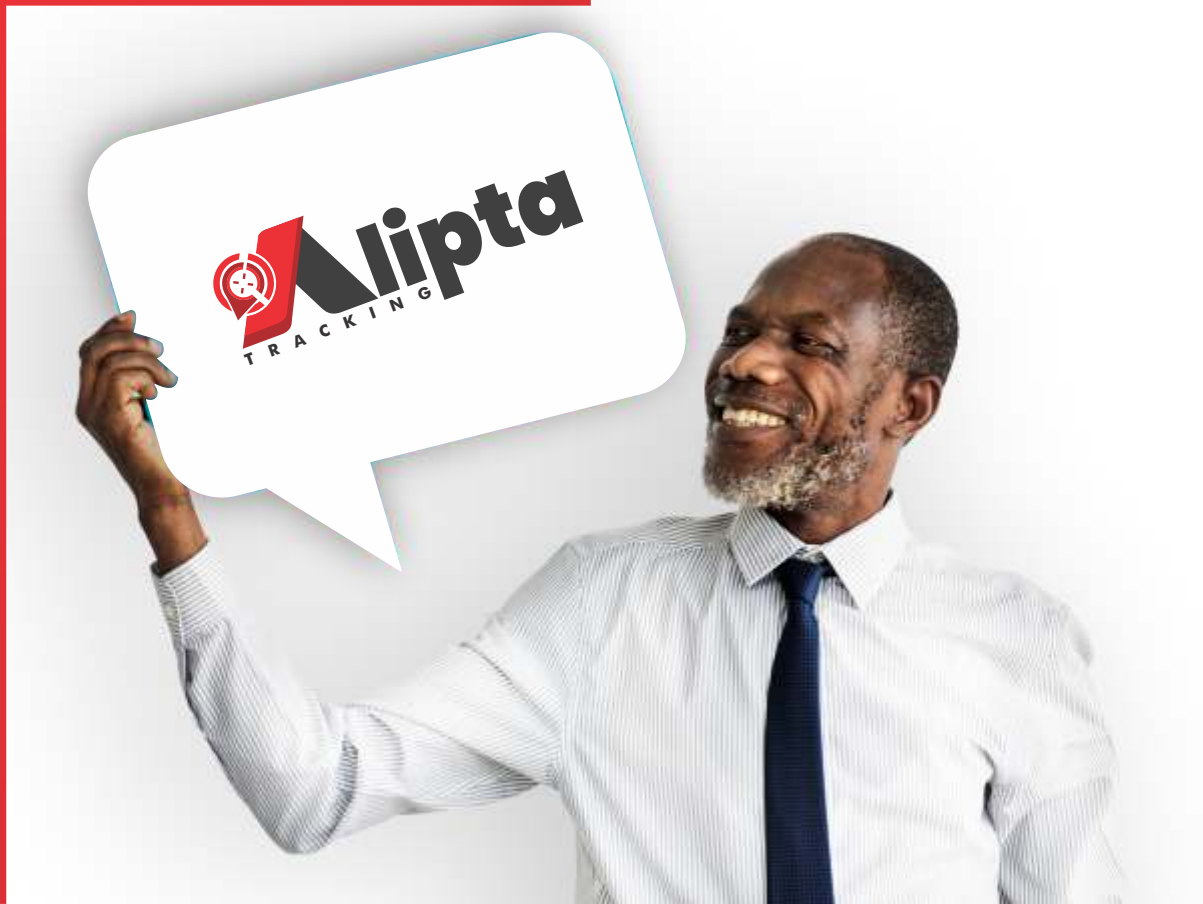

ELECTRIC FENCING & GATING

At ALIPTA TRACKING, Electric fencing is considered as the first line of defence in a typical security setup. It creates a physical barrier that delivers a 10,000-volt shock when touched as well as a perimeter alarm system.

Electric Gates are among the many quality services we offer to our customers and we build custom security gates. With custom designs and durable materials that will keep burglars behind bars, you can rely on ALIPTA TRACKING to give you that peace of mind. Keeping your home and business environment safe is our priority.

VEHICLE TRACKING

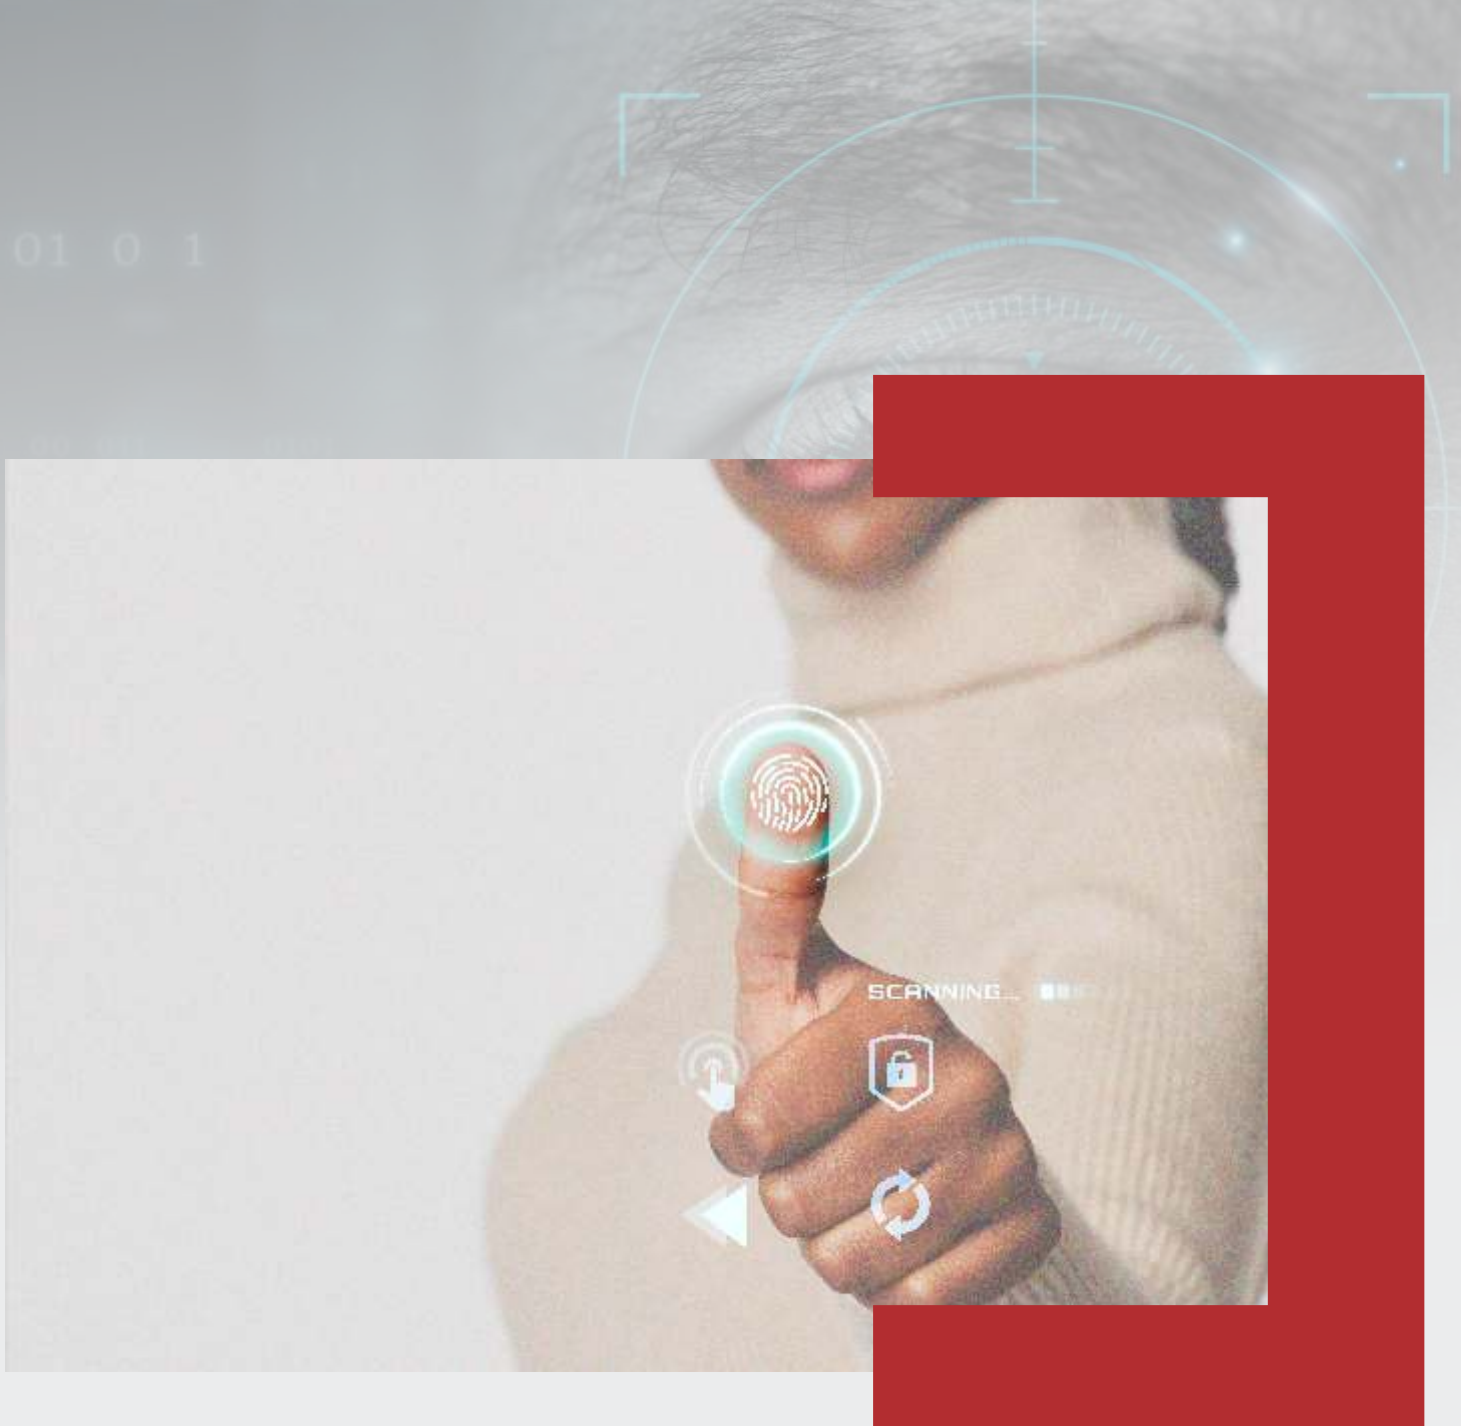

Weat ALIPTA TRACKING guarante your peace of mind with your fleet from abuse, damage and theft
