# Company Overview

Alipta Construction Private Limited is a wholly Zimbabwean owned company with its major vision being to be the name behind many of the Zimbabwe's most advanced and prestigious facilities and buildings. We provide our clients with reliable solutions to their most complex construction challenges. We will be recognized as a leader in the industry due to our tried and tested traditional construction methods combined with a creative, fresh Approach and cutting-edge delivery technologies.

Our staff expertise and South Africa based business partners spans the construction industry spectrum, from smaller renovations to multi-million-dollar projects.

We specialize in civil works, earthworks, construction of residential, service stations, educational, healthcare, and industrial facilities; telecommunications as well as infrastructural developmental projects such as roads, water and wastewater treatment plants among a host of other projects.

# Our Operations

## Pre-construction Services

We work with the owner and the design team in the early phase of drawings, to provide value engineering and suggestions for siting, constructability, budget, and scheduling.

Our pre-construction team works to reduce the overall project cost by saving time, labor and expenses. The result is a building designed to the owner's specifications, within budget and with no surprises.

# Our Operations

## General Contractor

As a General Contractor, we begin with pricing. We bid out the job in predetermined packages and verify the validity of the bids using our extensive cost histories. During actual construction, we manage the day-to-day activity on the job, including safety, quality control and adherence to the schedule. We provide bonding for the project and hold all subcontractor contracts, unless instructed to do otherwise by the owner.

# Our Operations

## Strategic Partner

As a Strategic Construction Partner, we operate as an extension of our client's own staff, overseeing both project construction and facilities management. Within this role, we create a "construction program" in which we manage design review, budgeting, scheduling, quality control, safety, and security, items. This project delivery method is best suited for an organization with multiple projects or facilities because it provides a consistent, measurable program through every phase of the construction process which can be extended to any location or facility. as well as any other client requested. A make use of our South Africa based partners, IQS as we use their knowledge and expertise.
